To The Administration

We would like to commend the entire administration on its excellent ability in the management of the Duquesburg school system. Only too often we tend to forget the hard work and long hours devoted by these people. Therefore, in accordance with these thoughts, we gladly extend a sincere, well done.

A decorative border of small, five-petaled flowers with dark outlines and green leaves, arranged in a continuous, slightly wavy line around the perimeter of the page.

Alma Mater

Oh, hail to Alma Mater

Dear mother of us all

We sing thine every glory

Within thine ivied walls

We love thy hallowed places

Revere thy honored goals

Oh, dear Duanesburg Central

And the purple and the gold

Alma Mater

Oh, let us sing tonight

And cheer the merry throng

And inspire our team to victory

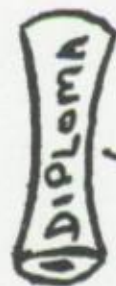

As we sing our battle song

It will always be our rule

To fight with courage bold

For the dear Duanesburg Central

And the purple and the gold

As we, the graduating class of 1968, leave Duanesburg Central, we wish to express our deepest gratitude to Mrs. Elyne E. Schulte.

Mrs. Schulte, as our advisor, has inspired us for the past four years in all phases of our school life. She has shown us the road to success and happiness in the years ahead by her patient and readily available guidance, both in the classroom and out.

Therefore, once more, we happily say "thank you".

"Liz"

This is a personal tribute to the memory of "Liz" McDougall from her teacher and friend Mr. Mason.

"I am thankful for her fine voice and boundless enthusiasm. She and I shared a love for good choral music that made for a fine relationship. Liz also had an infectious giggle and a wild sense of humor that made her a joy to have in Robed Choir.

I am sure that the faculty and students of D.C.S. join me in my sentiments."

MEMO TO HELEN

My Bob is so handsome and oh, is he smart ... Want to know why he's smart? Because he's a good shopper and knows values ...

* That's why he bought my diamond engagement ring at Graubart & Sons Jewelers. They have the best values, the finest quality and most beautiful settings.

* Bob is a jewel and so is the diamond that he surprised me with.

* You see, the Graubart's know diamonds and they're so dependable ... They've been selling jewelry and diamonds for over three generations.

* Take my advice, and also Bob's ... The diamond you buy should come from

The End...

And The Beginning

Graduation . . . and the end of twelve years of grade and high school . . . the beginning of a new era for you.

Many of you will be going on to college, to technical schools . . . while others will be going directly to jobs. Whichever your course may be, remember that your education doesn't stop when you finish school. You can keep on learning . . . by reading, by being constantly curious on your job, about everything you do, and finding answers to your questions. You can't stand still . . . for space-age America holds little for those who refuse to make progress.

The scientists of the future need trained workers to back them up . . . technicians who can build from their plans. In business, in communications . . . in arts and the professions . . . there's a future for those who keep learning . . . those who acquire more skills and more knowledge.

At General Electric, the future will demand trained personnel everywhere . . . to design the machines, to build them, and to operate them . . . to handle the vast amount of work to be done in new ways, with new products. General Electric is not alone in this . . . for every firm finds itself in need of men and women with ability and training, in every degree.

In the years ahead, miss no opportunity to add to your store of knowledge. Keep searching for facts, for theories . . . for the basic information you will need to help you grow in your chosen field. If you do learn, you'll fit into the pattern of the future . . . ready to accept the opportunities it holds for success.
